

CONTRIBUTION REGULATIONS – AS OF 1 DEC. 2023

PRELIMINARY REMARKS

The annual membership fees consist of two components – a contribution for the company and a contribution for the fleet in operation.

For active members, the right to vote at the general meeting is linked to the contribution component for the company. Operators of at least one passenger ship therefore have double voting rights compared to pure taxi boat operators.

In those cases where the ownership and operation of a ship is divided between two different companies, both companies can become active members.
